KSU's Responsibilities

KSU has certain responsibilities to ensure quality and integrity.

These include:

1. Having a current and accurate MOU submitted to SACSCOC and filed with KSU Accreditation Liaison.
2. A process for vetting faculty qualifications each semester.
3. The courses that are part of the arrangement are vetted through KSU's curriculum review process and included in appropriate catalogs.
4. There is collaboration, through regular and periodic meetings between KSU's academically qualified representative and external parties, to evaluate and monitor courses and/or program. This is currently done through participation on the eCore Regents Advisory Council with other institutions and eCore facilitators.

eCore and GEC

I am currently ensuring that courses missing from our catalog are submitted in fulfillment of our responsibility to the third point, which requires that the courses that are managed through the cooperative academic agreement known as eCore go through each participating institution's curriculum review process .

GEC involved in cases regarding alignment with Area A -E outcomes
Not adding these courses to our A -E offerings
